

The Creators of SAGE.

Fayol ateufack zeudom - Computer Engineer who programmed the jetson nano used for talking, navigating, and driving SAGE

Aidan Matson - Mechanical Engineer who designed and 3D printed the body for sage, Programmed the STM32 board that controls the motor drivers and reads the encoders.

Toby and Sam - Mechanical Engineers who did their best also toby wants you to call him a bum as a joke :)

Ranger Scott - A genius electrical engineer who made the charger and battery for SAGE, its a spotwelded 18650 battery pack, 4s14p 800 Whr battery.

Zach Nielsen - A computer engineer who picked the microphone and got really big while working on sage
